Letter of Commitment

Dear InnoMatch consortium,

I, [Name and Surname], [Position] at [Organisation's Name], hereby confirm that I am an authorised representative to sign this document on behalf of our organisation for our participation in InnoMatch.

I am pleased to confirm our commitment to actively participating in InnoMatch as an **Observing Buyer**. We acknowledge its significance and are fully committed to contributing to its success, including:

- **Identification of Challenge.** My organisation will support, if required, in defining the challenge by contributing to functional requirements and deployment scenarios.
- **Monitoring of the Pilot.** Even if my organisation does not take part in the deployment, which will take place in the Lead Buyer premises, we will monitor progress through updates and provide feedback for broader adaptability, previously planned and agreed with the Lead Buyer.
- **Results of the Pilot.** We may review outcomes, focusing on scalability and interoperability, as well as potential applications within our own organisations. We will participate in sustainability discussions, previously planned and agreed with the Lead Buyer.
- **Relation with Lead Buyer.** My organisation will maintain close communication with the Lead Buyer to ensure alignment and that our insights to refine the solution are shared with the Lead Buyer, ensuring compliance with the Intellectual Property Rights sections included in the Guidelines for Applicants.
- **Relation with the Selected EIC Awardee.** My organisation shall engage with the selected EIC Awardee by providing feedback about the Pilot, if requested.
- **Lead Buyer Drop Out.** Upon agreement, my organisation shall become the Lead Buyer if the Lead drops out for some reason.

We are fully aware that we will not receive any direct funding for the activities to be carried out during the InnoMatch programme.

We are aware of the aspects regarding the Intellectual Property Rights generated from the project, as regulated in the Guidelines for Applicants. We acknowledge that any Background Intellectual Property contributed to the project will remain the property of the respective owner. Additionally, we understand that any Foreground Intellectual Property generated from project activities will be subject to separate agreements with the rights holders, ensuring compliance with intellectual property regulations. We commit to the provisions regulated in the Guidelines
