About the solution

StrokeViewer

Nicolab **StrokeViewer** is the AI-powered stroke coordination platform that connects imaging, clinicians, and treatment pathways into one real-time workflow.

By automatically analysing CT and CTA scans, enabling instant multidisciplinary collaboration, and supporting hub-and-spoke networks, StrokeViewer reduces treatment delays, accelerates thrombectomy decisions, and improves access to life-saving stroke care across entire regions.

End-user

Healthcare systems, stroke networks, and hospitals managing time-critical neurological emergencies.

Forward-thinking healthcare providers, regional health authorities, and innovation-driven organisations looking to reduce treatment delays, improve patient outcomes, and scale specialist stroke expertise across multiple sites. They typically operate hub-and-spoke care models, have a strong focus on digital transformation, and are committed to leveraging AI and telemedicine to deliver faster, more equitable care.
