## About the solution

### Vitalera

**Vitalera** is the AI-powered remote care platform that monitors patients continuously and frees clinicians from manual follow-up. Our AI Health Agent automates check-ins, triages real-time data, and flags only clinically meaningful alerts—reducing hospital readmissions by up to 40% while cutting care-team workload and unifying every device, wearable, and EMR into a single signal.

### End-user

Hospitals, clinics, insurances, medical device companies
